

Pacific Warehouse Sales is a master distributor for Stanley Engineered Fastening, TORX PLUS® Engineered Fasteners. We have made a commitment to stock a broad range of engineered threaded fasteners designed to provide our customers with an engineered quality product line on the shelf. Made in the USA, we can provide off the shelf product or quick lead times from the factory. PWS, our word is how we do business.

TORX PLUS® Machine Screws

Materials

- Low Carbon Steel
- 302 Stainless Steel - Passivated

Plating

- Zinc Trivalent Chromate
- Clear Trivalent Chromate

- The patented drive system proven to out perform and outlast every other drive system.

Sizes

- #0 thru 1/4"
- M1 thru M6

Head Styles

- Pan
- Flat
- Button

Drive System

- TORX PLUS® Drive

TORX PLUS® Machine Screws With Crest Cup

Materials

- Low Carbon Steel
- 302 Stainless Steel

Plating

- Zinc Trivalent Chromate
- Clear Trivalent Chromate

- The ideal alternative to helical/flat washer assemblies and most other commonly used washers.

Sizes

- #2 thru 1/4"
- M3 thru M4

Head Style

- Pan

Drive System

- TORX PLUS® Drive

PLASTITE® Thread Forming Screws

Materials

- Low Carbon Steel
- 302 Stainless Steel

Plating

- Zinc Trivalent Chromate
- Clear Trivalent Chromate

- A trilobular body combines with a narrow thread profile to maximize performance in thermoplastics.

Sizes

- #0 thru 1/4"
- M2.26 thru M5.28

Head Styles

- Pan
- Flat

Thread

- 48° Twin Helix

Drive System

- TORX PLUS® Drive

Delta PT® Thread Forming Screws

Materials

- Low Carbon Steel - Through Hardened
- 302 Stainless Steel

Plating

- Zinc Trivalent Chromate
- Clear Trivalent Chromate

- Engineered for maximum performance in a wide range of plastics.

Sizes

- M1.59 thru M6

Head Styles

- Pan
- Flat

Drive System

- TORX PLUS® Drive

TAPTITE 2000® Thread-Rolling Screws

Heat Treat

- Case Hardened

Material

- Low Carbon Steel

Plating

- Zinc Trivalent Chromate
- Clear Trivalent Chromate

- Trilobular® thread form taps strong threads while easing assembly.

Sizes

- #0 thru 1/4"
- M1.6 thru M6

Head Styles

- Pan
- Flat

Drive System

- TORX PLUS® Drive

TORX PLUS® Socket Screws

Material

- Heat Treated Alloy Steel Class 12.9

Sizes

- #0 thru 4"
- M3 thru M16
- Up to 4" Length

Head Styles

- Socket Head
- Flat Head
- Button Head

Drive System

- TORX PLUS® Drive

PT® Thread Forming Screws

Heat Treat

- Through Hardened

Material

- Low Carbon Steel

Plating

- Zinc
- Clear Chromate

Sizes

- M2.5 thru M4

Head Style

- Pan

Drive System

- TORX PLUS® Drive

- Engineered to provide increased thread engagement in thermoplastic applications.

Mag-Form® Thread Forming Fasteners

Heat Treat

- Through Hardened

Material

- Low Carbon Steel

Plating

- Zinc Chromate

Sizes

- M1.4 thru M6

Head Styles

- Pan
- Flat

Drive System

- TORX PLUS® Drive

- Maximizes performance tapping into magnesium die-castings and other low-ductile materials.

FlorTORX® Floor Screws

Heat Treat

- Through Hardened

Material

- Low Carbon Steel

Finishes

- Phosphate
- Wax

Styles

- Thread-Forming
- Thread-Cutting

Sizes

- 1/4" thru 5/16"

Head Style

- Flat

Drive System

- TORX PLUS® Drive

TORX PLUS® Drive System Tooling

TORX PLUS® Insert Bits

Sizes

- 31IP thru 80IP

Hex Shank

- 1/4" and 7/8"

Overall Lengths

- 1" thru 2"

TORX PLUS® Short Arm Hex Keys

Sizes

- 10IP thru 50IP

Material

- Heat Treated Alloy Steel

TORX PLUS® Tamper-Resistant Insert Bits

Sizes

- 10IPR thru 40IPR

Hex Shank

- 1/4"

Overall Length

- 1"

TORX PLUS® Power Bits (1/4" Shank)

Sizes

- 6IP thru 40IP

Overall Lengths

- 2 3/4" thru 6"
